Subject: Questar docket # 0805711

I am writing to let someone know my opinion on this Questar issue. I believe Questar should just let this go and chalk it up as a mistake and learn from the mistake.

Businesses write things off all the time. I understand it is only .43 but the point is it was not my mistake nor did it affect me and I am paying more than the ones who got the free gas service.

I think someone should really rethink this it is just not fair.
